## Distress Calls Onboard

### Look For Seamanship Course USPS 888-367-8777

**Mayday:** highest level of emergency call, only when imminent danger of loss of life or vessel. Repeat Mayday 3 times. Be prepared to answer Coast Guard questions. Geographical position(latitude & longitude from boat GPS) or look for prominent feature ashore that you can identify w/distance & direction. Describe emergency, situation and assistance you desire. Be precise. Describe the boat – color, size, distinguishing features. Number of people onboard. Condition of the boat.

**Saying "OVER"** means you are through with information and waiting for a reply.

**Saying "OUT"** ends the expectation of additional transmissions.

**Pan-Pan:** sense of urgency without potential loss of life or vessel. Such as loss of steerage or power, or injuries without potential for death but that adversely impact the ability to safely operate the boat.

**Se'curite':** Alerts boaters that safety information is being broadcast. Navigational problem like piling loose in channel, light out on nav aid, vessel overdue in transit or severe weather moving through area. ⚓

# Improvements at DYC

As always we work to improve your boating experience with updates and clean ups around the marina.

Boatel customers will love the new engine installed in the Wiggins forklift because she is a clean runner with no sooty exhaust! The boatel floor has new concrete and bump stops at boatel launch were repaired and painted.

The driveway into DYC was redone with paved gravel and the main ship's store office received several coats of fresh paint.

DYC Service Techs stayed busy all winter with service work and also found time to give the 50 Ton Travel lift some love with a service rehab and exterior paint job.

New landscape lighting, small updates to interior of main bath house and B Dock petunias ready to be planted - all add to your enjoyment of Deltaville Yachting Center. ⚓

## MIDDLESEX COUNTY BOAT TAX ON 5+ TON VESSELS REDUCED

We are happy to report that on April 26, 2018 Middlesex County Board of Supervisors voted to reduce the Personal Property Tax on Vessels 5 Tons and greater for the 2018 budget year. We hope this Middlesex County decision is the 1<sup>st</sup> step to entirely removing this tax on our customers.

The personal property tax for boats 5+ tons was reduced to .61 per \$100 assessed vessel value, a 38% reduction from the 2017 rate of .98 per \$100 assessed vessel value.

In most cases a 5+ ton vessel is 26' or greater. Although length is not the measure, but volume.

\*Personal Property tax on boats located in Middlesex January 1st and normally kept in Middlesex- DOES NOT apply to boats in Middlesex for service or on a temporary basis.

We will continue to work with our Middlesex Board of Supervisors to educate them as to the affect of the boat tax on our customers.

Thank you to our many wonderful customers who choose Deltaville Yachting Center & Chesapeake Yacht Sales for their boating needs.
